Ms. Arlene Loble
City Manager
Park City Municipal Corporation
445 Marsac Avenue
Park City, Utah 84060

Dear Arlene:

Enclosed is a copy of our response to comments submitted by Park City on the EPA air report released this past July. A copy of both Park City's comments and EPA's response have been added as a late appendix to the final report and will be available as a part of the record for our recently concluded study.

Also enclosed are the analytical results from EPA's testing of the road salt/slag material provided us by your staff this summer. As you will see, our results compare well with those obtained on the same material by your consultant. Based on these analytical results, we conclude that the road salt/slag material is not contributing to the metals levels of concern at the site.

Finally, we are continuing our evaluation of the draft ordinance and still plan to have our comments to you by November 11, 1988.

Sincerely,

Robert L. Duprey, Director
Hazardous Waste Management Division
